

Step By Step Christian School is dedicated to developing the total child. Our proven teaching program prepares children academically, socially, emotionally, & spiritually, to help ensure you're giving them the best possible start in life.

By choosing Step By Step, you are empowering your child for the future. We have been helping children succeed one step at a time since 1982.

Step By Step's progressive, individualized program was created by combining proven traditional teaching methods with the latest classroom technologies.

These young students in the Raccoons class may only be 4, but they are no strangers to learning. Their daily preschool program includes math, language, science, art, music, Bible, & of course, fun!

The program includes group lessons, written & computer work, Bible lessons, & individual learning.

Each learning process has been broken down into small steps, which ensures that every child will achieve success. Enroll today to start your children taking their first steps toward success.

Circle Time with the Robins class may include a variety of activities like science experiments or celebrating the 100th day of school by counting to 100!
